This Association had started underground functions in Afghanistan in the year 1981 (Higira 1359) in accordance with the than existing conditions and circumstance. This Anjuman has no political aspirations. This Anjuman is struggling for recovery of fire arms and Reconciliation on international level and desires to finish war and conflicts in the entire world. We want to find out ways and means for finishing conflicts and present the same to the leaders, elders and members of the country. We offer our humble services to act as an agent for Reconciliation in conflicts and scuffles.
