S i r

I have a Patent for SKY PLATFORM. Patent No GB 2229155.
Enclosed is a copy.

Sky Platform is a specially designed airship to operate on 50 kilometre altitude or more. Can serve like satellite for: Telecommunication, T.V. and Radio transmission, Radar observation, Coastal observation, Astronomical observation, and for many things in military. Like I did say, can be use instead of satellite with fraction cost of satellite.

To have satellite into the space, will cost your Government about SIX HUNDRED million dollars. Sky Platform will cost you only TWO HUNDRED million U.S. dollars, with 15 years guaranty.

Orders with 50% deposit. Delivery for 18 months.

V. Mihajlovic

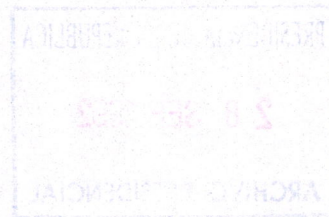

Inventor

CERTIFICATE OF GRANT OF PATENT

In accordance with Section 24(2) of the Patents Act, 1977, it is hereby certified that a patent having the specification No 2229155 has been granted to Vladimir Mihajlovic, in respect of an invention disclosed in an application for that patent having a date of filing of 13 March 1989 being an invention for "Sky platform"

Dated this Tenth day of June 1992
