India; Kuala Lumpur, Malaya; and many other countries

President Patricio Aylwin,  
The Government of Chile,  
Santiago,  
CHILE.

December 31, 1991

The purpose of this letter is to inform you about the activities of a new college and the modus operandi of Nova.

There are two main factors for which the college was established as follows:

- a) To provide an alternative to students vis-a-vis the traditional institutions, and a fee structure which a much wider number of people can afford. Notwithstanding the fee structure noted in the enclosed brochure, those persons who are unable to afford even these fees, will be considered for awards at a reduced fee, or no fee at all.
- b) Since all staff (including the President) receive no remuneration, and all profits will go to world-wide assistance, there is, obviously, a philanthropic dimension to the college.

We are fortunate in having considerable resources along with dedicated staff. It is felt that such an entity as Nova is most worthwhile, particularly with the increasing costs for education, cut-backs in funding, reduction in staff, and other curtailments evident in traditional colleges/universities.

Our aims, therefore, are as follows:

- 1) To provide the facilities as noted above under "a" and "b".
- 2) To prevail upon authorities in many countries to give us the tools in terms of recognition from their respective educational bodies so as to allow us to implement our programs.

We have no objection to founding an agency, or other entity, in the specific country should this be desired. This letter will be sent to numerous nations. We hope that support will be forthcoming as we shall support the country/countries concerned. We look forward to your reply.

Kindest wishes!.

Yours sincerely,

  
Reginald P. Farley, Ph.D.,  
President
