SUBJECT: IRAQ divided by SEA ACCESS = WAR

Iraq has spent 60 billion dollars, plus the lives of huge numbers of people, in a war with Iran because Iraq needs more access to the sea. Kuwait lent Iraq 15 billion dollars as war aid (against Iran) to help them gain additional sea access through Iran, but because Kuwait still owns the islands between Iraq and the shipping lanes in the Persian Gulf, Iraq still does not have that sea access.

Now the Iraqis still don't have their needed sea access, and they can't pay their debts. Kuwait has exploited its sea advantage, as has Saudi Arabia and Iran. Why? Because these nations wish to gain more money. And they wish to gain money at any expense, including the sacrifice of many lives.

The United States and other countries bank money for all of the nations mentioned. So, it really is greed for money gain that has caused the world to again be near nuclear war. And it is chiefly caused by high interest paid on money deposits in Banks. Money manipulators include insurance companies and savings and loans, as well as banks. Money manipulators are again the cause of great suffering throughout the world. High interest rates are the chief cause of corporate and personal bankruptcies. The high interest rates are the real cause of homelessness and world inflation.

THE ANSWER: (1) GIVE Iraq or any other nation access to the sea through a passage in which Maglev Trains can be constructed and used by all people, regardless of national or religious interests. These sea accesses are vital to all nations and must not be denied to any. Taxes or land rent must not be levied against any for sea accesses. The builder should assume all costs for building as well as maintenance. Every nation needs the sea access, not only for transporting goods out, but for bringing in seawater for conversion to fresh water for irrigation. (2) Charge no more interest on money loaned. Charge a fair service fee, yes, but no interest on money loaned, and pay no interest on money deposited. If people wish to earn money on their savings, let them invest in our industries.

It is time that all nations be allowed to play on a level playing field. Under the current setup it is impossible and grossly unfair! Too many nations, and too many of their citizens, owe so much interest that they can never begin paying off principal. Only the moneylenders own; everyone else owes. As the apostle Paul has stated in the Christian Bible: "Love of money is the root cause of evil". We must begin by chopping roots!

"In God We Trust"

ZERO POPULATION GROWTH: Some people think the world needs Zero Population Growth. They think we are running out of natural resources and land for the people. But, nothing could be further from the truth. The facts are that the Earth's human population could grow by a factor of a trillion and we could still house and feed all the people right here on Earth. But because some people fear, they have deliberately encouraged families to "live on credit" and then raised the interest rates and fees to exorbitant heights. They have made it appear to be impossible to feed, clothe, and house children. All of this because the Zeros wish to limit the growth of families! They disobey God!

God said: Multiply and fill the Earth. This means filling the Earth with humans, not dinosaurs. When it comes between humans and dinosaurs, dinosaurs must die! Hundreds of species of life fall extinct each day. But humans must never become extinct. Again we must ask why. The answer is given by God. You must not kill anyone who is made in the Image of God. God proclaims the penalty for this sin. It is death! And death only because someone or some creature killed a person made in the Image of God. That is God's first and last word on the subject. **God has not changed His mind.** As the Bible says: He changes not! Some people with very large families are badly criticized. But the One Who created us, **ORDERED US** to have large families! He can and will protect all who trust in Him. We are also to occupy the heavens. That is the purpose for all star systems and galaxies that exist! We are nearly ready to occupy both Moon and Venus. We CAN change atmospheres!

God gave further orders: We must subdue and dominate throughout the entire universe! We must subdue all THINGS (animals, birds, fish, plants, etc.) in order to follow His first order. **This fact must become clear to everyone.**

YOU MUST CHOOSE SIDES! Either you are friend or foe of God. If you are foe, the wrath of God will abide upon you and you will only get pain and sorrow. But with God there is joy everlasting!

Now, please use your influence to end this awful war and give Iraq sea access. And we must insure that **ALL** nations have sea access without fear of being cut off! Remember the Alaskan pipeline. We couldn't build it through Canada because we might have to war to keep the pipeline open. Both Americans and Canadians would then die. That would be very wrong. Now, because we chose a sea route, the Exxon Valdez spilled oil and much wildlife and sea life was destroyed. It cost Exxon billions of dollars and many people lost a good place to live and work. That fiasco could also result in loss of human life because of high food prices!

We urge you, in the name of God, to take action now to stop the Iraq war and all future wars that may result from these very same causes: Access to the Sea and Interest paid on Money.

Respectfully,

Herschel H. Jones
