Greatly revered Excellency,

I take the liberty to send you, greatly revered Excellency, very kind regards from the north of the Federal Republic of Germany, viz. from the free Hanseatic town of Bremen.

I am much interested in the events in your marvellous country. I am also sure that the Federal Republic of Germany does not only belong to the business partners of your country, but is attached to your people and friendly connected to same. The stamps of your country are getting always new collector friends because of their pretty style.

May I now connect these lines with a cordial request? I should, indeed, be very thankful to you, greatly revered Excellency, and should be very glad to get from you a photo with signature in own hand (on the front-side) for the school collection. The cause why the signature should be put on the front-side is that the photo, after being framed by me, shall be taken to the school autogram collection. It would be a great honour for us if we could get a positive reply.

Therefore - please, please, please, do help us!

I beg to enclose a picture postcard showing the center of my native town of Bremen. The Bremen townhall, erected in 1405, can be seen, and it is said to be one of the most marvellous ones in Germany.

From a far distance I wish you, greatly revered Excellency, always good health, much success in politics for prosperity of your marvellous native country.

I remain with special reverence,

Yours faithfully,

Gerd Konarske
