**ARCHIVO**

Dear Mr. President;

We, the undersigned, are a group of U.S. doctors and nurses concerned about the fate of the Bio Bio River. Last year at this time, eight of us rafted this spectacular river with Expediciones Chonos. We were awed by its natural beauty and thrilled by its powerful water. El Bio Bio es muy lindo

We are asking you, Mr. President, to take an active role in stopping the dam until; 1) A full review of the social and environmental impact can be studied and 2) The world public has had an opportunity to comment on the project. We are sure you realize that the Bio Bio River is a world class recreational and scenic resource. Please, do what you can to protect it!

All of us had many wonderful experiences in Chile. Your people are honest and friendly, your land is beautiful and cared for. We all agree that we would love to return to Chile and to see, once again, the splendor of the free flowing Bio Bio River.

Thank you for your time and attention to this matter. Muchos Gracias.

Sincerely;
