Mr President,

Let me first bring forward our congratulations for the day when the dark period of dictatorship will be changed into a democratic and dynamic country under Your leadership.

It is indeed a difficult task to live up to all the expectations of a better future after this lost years of suppression of human right in Your country.

Let me further more take this opportunity of bringing forward our sincere wishes of a positive development, at the same time I like to assure You of the confidence the Swedish youth have in You and our government.

Regarding the invitation to participate in the International Ceremony, we thank You very much for Your invitation. ~~Unfortunately we don't have any possibility to attend the ceremony. We though would like to tell You that~~ ~~at the same time the mind of most people in Sweden will be with you in the happy moment of victory of humanism over totalitarian repression~~

Yours Sincerely,

Tomas Johansson
Secretary General
