All Countries are equal and essentially ^{2 5 ABB} one. Each of them represents an aspect of the one SUPREME.

In the terrestrial manifestation they all have the same right to a free expression of themselves. From the spiritual point of view, the importance of a country does not depend on its size or its power or its authority over other countries. But on its response to Truth and on the degree of Truth it is capable of manifesting.

The Mother.

When the people of Iraq are dying and crying without water and food, to observe the victory day by America is full of obscurity, imbecility and short-sightedness. True victory can only be had by conquering the hearts of people by universal Divine love, not by threatening, violence, weapons, arrogance and atrociously playing holi in the lives and blood of the innocent people and bringing victory injudiciously by man made power. Being much more proud in power and wealth, America should not think the whole universe as a saucer.

As the UNO is completely governed by the blinding influences and ignorant directions of America, it fails to establish true love, peace, unity, Ananda in the world. So all other countries except America should resign from their membership and form a New Divine Nations organisation where they all can get equal right, justice, love, peace and immortal ananda because this will be governed directly by the Almighty- not by the false-hood or egoistic power and politics.

Then this earth shall be the field and camp of Gods and this earthly life full of death and suffering shall become the life divine.

Who is that nation — will show the, NEW DIVINE LIGHT, SUNLIT PATH for the NEW AGE.

WAR IS NOT A SOLUTION, RATHER IT
INCREASES THE NUMBER OF PROBLEMS.

" ALL THE COUNTRIES MUST BE VERY CONSCIOUS OF THE TRECHERY,
PREDOMINANT AND COLONIAL ATTITUDE, DIVIDE RULE POLICY AND
ENDLESS SELFISHNESS OF AMERICA AND UNITEDLY PROTEST VEHE-
MENTLY OTHERWISE THEY WILL BE ABSORBED AND CRIPPLED IN WAY
OF ECONOMIC AND MILITARY DOMINATION."

To

The Hon'ble Secretary General /
Hon'ble President of Security Council of UNO,
Newyork, U.S.A.

SUB: THE PRESENT INACTION OF UNO
IN GULF WAR.

Hon'ble Sir,

The UNO is completely inactive in the case of Gulf War and it has now become a fit instrument of America and her submissive countries instead of acting freely. America whenever she likes can govern the UNO to her will and desire and no-body on earth shall be able or has courage and power to indulge or impugn against such inequity. When Iraq is responsible for the loss of property at Kuwait, then why America will not be solely responsible for the loss of immeasurable human lives and property at Iraq where she has created atrocious massacre and dilapidation in name of freed Kuwait violating the security council's resolution? And the Hon'ble President of Security Council and the Hon'ble Secretary General have nothing to take appropriate action against America for her such impudence. All the nations have also now become blind to this point.

When Kuwait is now completely free of the occupation of Iraq, then the dispensable presence of allied forces at Iraq, Kuwait and Saudi Arabia in name of Security to Gulf countries is full of conspiracy. Moreover, America has usurped the South Iraq immodestly and is creating further massacre and insurrection there with an ill-attitude of disintegration of Iraq. It is not understood, how the UNO with its members have become silent witnesses to this

insolent activities of America. The people of **Draq** are dying without water , food, medicine, electricity. To impose on further restriction on **Draq**,² the most absurd and ~~xxx~~ fatuous thing. It is quite illogical, injudicious, short-sighted and presumptuous.

THE REVOLUTIONISTS OF **DRAQ** INSTEAD OF REVOLT AGAINST Mr.SADDAM HOSSEIN WITH THE HELP OF AMERICA & IRAN, THEY MUST HELP UNITE²LY IN RECONSTRUCTION OF **DRAQ** AND FOR ESTABLISHING A SINGLE NATIONAL DEMOCRATIC GOVERNMENT IN THE COUNTRY FOR THE GREATNESS AND UNITY OF THEIR NATION.

America is a only country in the world who is taking always the decisive preparatory ill attitude for her boundless selfishness for which she can do every thing to keep the whole world by economic and trade domination in her possession. The Gulf Muslim countries instead of helping **Draq** unitedly and without bringing cohesion within themselves and without opposing strongly the invasion and presence of America in Gulf countries , they all welcome it for which America availed golden opportunity to abstract wealth, oil, minerals, raw materials and stood as an impediment on the way of their unity and greatness and religion. This is the colonial and hypocritical nature of the Western countries by which they had divided the unity and greatness of different countries in the world by their imposture dividd rule policy and could rule over years together by colonisation.

So it has now become absolute necessary to the Gulf countries whether they will bring their unity in themselves and live g together and strongly oppose the presence of allied forces otherwise the whole Western Asia will be in the impenetrable clutches of **America** in the way of economic ^{and} military predomination. The UNO has no power to take any action against **America**, so there is no necessity of existing of UNO where there is no justice, truth, love peace, equal right & security.

With best regards,

Yours Sincerely,

Dated: 20th March,1991.

MESSAGE DATED 25-9-91

Possessed herself with huge quantity of atomic and other subversive weapons, to compell by threatening to other countries to destroy the same is a most absurd thing. If America wants to change the world, then she must first change her self absorbed consciousness

Copy submitted to the Hon'ble President U. S. A. for favour of information and necessary action. Firstly, the role of the united states is to provide the financial help without any interest to prepare the earth for the New Creation. The people of the United States must become aware of these, individual or organisation capable of bringing about this transformation and give them the necessary money.

America should feel the heartrending cry of the Universal Divine Mother who bears all suffering of the whole humanity. The power of money is a universal divine power must be withdrawn from the egoistic asuric powers and should be utilised mainly to make the earth ready for its supreme manifestation so that we can be able to remove the sorrow and suffering of our beloved universal divine Mother. The surest and easiest way of it is to eliminate completely all the existing war equipments from the earth and we must be free from the further production and testing and buying and selling of all the arms.

Firstly, America has to become a living ardent example of the total elimination of arms and soldiers so that all other countries in the world will follow this sunlit path which will bring immediately the unity and harmony in the world

Copy submitted to the Hon'ble Secretary General and the Representatives of U. N O /Hon'ble Presidents/Prime Ministers/Kings of USSR, France, India and all other countries for favour of information and necessary action.
