Excellency:

It was a good fortune for me to have the opportunity of visiting your country as a member of the Japanese Economic Mission to Latin America.

The meeting with you and your colleagues was very informative, constructive and educational, and I was deeply impressed with your strenuous efforts to construct your country's economy which is generating its stability and prosperity. It seems to me the political democratization and economic liberalization has reached to the point of irrevocability, and your incessant and persevering endeavour will assure your people of steady progress.

As an executive of a private enterprise, I have had a certain incentive for further promotion of business in your country, and will endeavour my utmost attempt to convey to my colleagues what I observed at first hand in your country.

Hoping to establish a closer link between your country and Japan for the challenging future.

Very truly yours,

como ejecutivo de una empresa privada, he tenido cierto incentivo para mayor promoción de negocios en su país.
