Dear Mr President.

I wish to express to you my very deep concern for Belinda Zabicueta Gormona who has been imprisoned for six years and tortured and ~~with~~ no confirmation of her sentence has been made.

There are, I gather, still many people in your country who are in prison for political reasons. I would sincerely ask that all cases where human rights have been violated should be investigated &

civilian courts and not military ones. A particular case I would ask you to consider is that of Alfonso Clamoran who was 'disappeared' and military people have been implicated in his disappearance. I do beg that all cases of disappeared persons should be properly investigated and prosecutions, even against the military, be made.

I am,
Yours sincerely,
Gedore M. Borthy
